Contents Volume 195 (1997)

Spatial distribution and population dynamics of *Striga hermonthica* seeds in naturally infested farm soils
G.-J. van Delft, J.D. Graves, A.H. Fitter and M.A. Pruiksma **1–15**

The Ultuna long-term soil organic matter experiment II. Posphorus status and distribution in soils
E. Otabbong, J. Persson, O. Iakimenko and L. Sadovnikova **17–23**

Elevated atmospheric CO_2 and soil N fertility effects on growth, mycorrhizal colonization, and xylem water potential of juvenile ponderosa pine in a field soil
R.F. Walker, D.R. Geisinger, D.W. Johnson and J.T. Ball **25–36**

Root development of 'Red Lady' papaya plants grown on a hillside
T.E. Marler and H.M. Discekici **37–42**

Microbial suppression of in vitro growth of *Pythium ultimum* and disease incidence in relation to soil C and N availability
S. Hu, A.H.C. van Bruggen, R.J. Wakeman and N.J. Grünwald **43–52**

Nutrient salts and the toxicity of black-layer induced by cyanobacteria and *Desulfovibrio desulfuricans* to *Agrostis palustris*
C.F. Hodges and D.A. Campbell **53–60**

Variation in activity of root extracellular phytase between genotypes of barley
F. Asmar **61–64**

Effect of gas pressure in the root and stem base zone on methane transport through rice bodies
T. Hosono and I. Nouchi **65–73**

Effects of three soil-applied herbicides on populations of plant disease suppressing bacteria in the cotton rhizosphere
A. Heydari, I.J. Misaghi and W.B. McCloskey **75–81**

Fate of ^{15}N labelled fertilizer applied to spring barley grown on soils of contrasting nutrient status
M.J. Glendining, P.R. Poulton, D.S. Powlson and D.S. Jenkinson **83–98**

Potential for phytoextraction of ^{137}Cs from a contaminated soil
M.M. Lasat, W.A. Norvell and L.V. Kochian **99–106**

Morphology and tissue quality of seedling root systems of *Pinus taeda* and *Pinus ponderosa* as affected by varying CO_2, temperature, and nitrogen
J.S. King, R.B. Thomas and B.R. Strain **107–119**

Failure of an iterative curve-fitting procedure to successfully estimate two organic N pools
L. Dendooven, R. Merckx, L.M.J. Verstraeten and K. Vlassak **121–128**

Effect of phosphate rock, coal combustion by-product, lime, and cellulose on ryegrass in an acidic soil
V. Baligar, Z.L. He, D.C. Martens, K.D. Ritchey and W.D. Kemper **129–136**

Remobilised nitrogen and root uptake of nitrate for spring leaf growth, flowers and developing fruits of pear (*Pyrus communis* L.) trees
M. Tagliavini, M. Quartieri and P. Millard **137–142**

Polyamines in humic acid and their effect on radical growth of lettuce seedlings
C.C. Young and L.F. Chen **143–149**

Changes in the soil organic N fractions of a tropical Alfisol fertilized with ^{15}N-urea and cropped to maize or pasture
S.J. González-Prieto, L. Jocteur-Monrozier, J.M. Hétier and T. Carballas **151–160**

Secretion of phytase from the roots of several plant species under phosphorus-deficient conditions
M. Li, M. Osaki, I.M. Rao and T. Tadano **161–169**

Decomposition of roots in loblolly pine: Effects of nutrient and water availability and root size class on mass loss and nutrient dynamics
J.S. King, H.L. Allen, P. Dougherty and B.R. Strain **171–184**

Viability of VA-mycorrhizal fungi following soil solarization and fumigation
R. Bendavid-Val, H.D. Rabinowitch, J. Katan and Y. Kapulnik **185–193**

The stimulating effect of ammonium on nodulation in *Pisum sativum* L. is not long lived once ammonium supply is discontinued
R.H. Gulden and J.K. Vessey **195–205**

Erratum **207**

Nitrogen acquisition and competitive ability of *Kalmia angustifolia* L., paper birch (*Betula papyrifera* Marsh.) and black spruce (*Picea mariana* (Mill.) B.S.P.) seedlings grown on different humus forms
R.L. Bradley, B.D. Titus and J.W. Fyles **209–220**

Estimating respiration of roots in soil: Interactions with soil CO_2, soil temperature and soil water content
T.J. Bouma, K.L. Nielsen, D.M. Eissenstat and J.P. Lynch **221–232**

Seasonal changes in fluxes of methane and volatile sulfur compounds from rice paddies and their concentrations in soil water
I. Nouchi, T. Hosono and K. Sasaki **233–245**

Nitrate leaching from sandy loam soils under a double-cropping forage system estimated from suction-probe measurements
H. Trindade, J. Coutinho, M.L. Van Beusichem, D. Scholefield and N. Moreira **247–256**

Nitrogen fixation and N contribution by promiscuous nodulating soybeans in the southern Guinea savanna of Nigeria
N. Sanginga, K. Dashiell, J.A. Okogun and G. Thottappilly **257–266**

Diurnal variation in methane efflux at different growth stages of tropical rice
S.N. Satpathy, A.K. Rath, B. Ramakrishnan, V.R. Rao, T.K. Adhya and N. Sethunathan **267–271**

Relationship between decomposition of cellulose in the soil and tree stand characteristics in natural boreal forests
A.-M. Kurka and M. Starr **273–281**

Magnesium deficiency in young Norway spruce (*Picea abies* [L.] Karst.) trees induced by NH_4NO_3 application
C. Kölling, B. Pauli, K.-H. Häberle and K.E. Rehfuess **283–291**

Adsorption and movement of metalaxyl in soils under unsaturated flow conditions
D. Sharma and M.D. Awasthi **293–298**

Field observations on nitrogen catch crops. I. Potential and actual growth and nitrogen accumulation in relation to sowing date and crop species
J. Vos and P.E.L. van der Putten **299–309**

Water, nutrients and slope position in on-farm pearl millet cultivation in the Sahel
J. Rockström and A. de Rouw **311–327**

Uptake of ^{15}N-labelled alanine, ammonium and nitrate in *Pinus sylvestris* L. ectomycorrhiza growing in forest soil treated with nitrogen, sulphur or lime
H. Wallander, K. Arnebrant, F. Östrand and O. Karén **329–338**

Effect of maize canopy and water repellency on moisture patterns in a Dutch black plaggen soil
L.W. Dekker and C.J. Ritsema **339–350**

Root decomposition across a barrier island chronosequence: Litter quality and environmental controls
C.E. Conn and F.P. Day, Jr. **351–364**

Effect of rainfall pattern on nitrogen mineralization and leaching in a green manure experiment in South Rwanda
F. Hagedorn, K.G. Steiner, L. Sekayange and W. Zech **365–375**

Volume contents **377–379**

Author index **380**
